

1. Big Picture — How the Business Looks Right Now

The business is experiencing significant financial distress with deteriorating performance across key metrics. Sales showed volatility with a sharp 23% decline in April 2025, while profitability collapsed with a negative 62.29% net profit margin in the same period. Cash flow management remains challenging, though operating cash flow showed some improvement in March before turning negative again. The overall financial health has declined substantially, particularly in the most recent reporting period.

🟢 GREEN FLAG BOX — What's Working Well:

- ✅ Strong sales performance in March 2025 (₹1,252M)
- ✅ Improved operating cash flow in March (₹273.9M positive)
- ✅ Consistent reduction in secured borrowings across periods

🔴 RED FLAG BOX — What Needs Attention:

- ⚠️ Massive profit collapse in April 2025 (-₹602M net profit)
- ⚠️ Negative equity position developing (-₹407.8M total equity)
- ⚠️ Critical gross margin deterioration (-60.67% in April)

Overall Health Gauge: 🟡 Critical
